1st March 2021 Onwards

Top 50 Topics which we will cover

1. CCTV History & Why do we need CCTV?
2. Type of Security Systems.
3. Different Type Of CCTV Systems
4. Different Type Of CCTV Camera
5. Camera Systems On Chip
6. CMOS & CCD Sensors
7. Infra-Red
8. IRIS Type
9. Image Resolution
10. FOV (Field Of View)
11. Frame Rate
12. WDR
13. HLC & LLC
14. Compression Standards H.264, H.265 Etc
15. ONVIF Protocols
16. HDD & HDD Space Calculation Technique
17. Bandwidth Calculation
18. DVR & NVR Configuration
19. DVR & NVR Troubleshooting
20. Professional Installation Technique
21. Cable Laying Technique
22. BNC Termination
23. Power Supply Selection Method
24. Power Supply Termination
25. Playback & Export
26. Basic Network Topologies
27. Termination Technique For IP Components
28. PTZ Configuration
29. People Counting
30. Heat Mapping
31. Mobile Surveillance Solutions
32. Smart Behavior Detection Camera
33. Preventive And Cautionary Tips
34. Security Methods
34. VMS & Mobile Clients
35. Type Of Storage
36. Structural Cabling
37. Intruder Alarm
38. SDK
39. Access Control
40. PABX
41. SMATV
42. Digital Signage
43. PAVA – BGM
44. Smart Office
45. Smart Home
46. Fire Alarm Systems
47. MCS (Master Clock Systems)
48. PMS (Parking Management Systems)
49. AGBS – Automatic Gate Barrier Systems
50. Why & When Do We Need Network Storage
